Education

Career Accelerator Program
Prepleaf by Masai
August 2023-present

**Bachelor of technology
(Electrical Engineering)**
Amritsar College of Engineering
and Technology
August 2019 - June 2023

Technical Skills

React JavaScript MongoDB
Express.js Node.js Redux

Soft Skills

Attention to Detail Teamwork
Time Management Adaptability

Achievements

Convenor
Central Library (ACET)
Coordinator of the College Student
Library Committee for four years.

Certifications

**100 Days of Code: The
Complete Python Pro
Bootcamp for 2023 - Udemy**
Udemy

Vatsal Sharma

Full Stack Web Developer

Professional Summary

Energetic Full Stack Web Developer with robust expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js) and Generative AI. Exceptional in swiftly learning new technologies and ensuring seamless frontend-backend integration. Strong problem-solving abilities, collaborative mindset, and dedicated to code excellence.

Experience

Adani Power Rajasthan Ltd., | Intern January 2023 - May 2023

- Collaborated with senior engineers and technicians to troubleshoot and resolve electrical issues.
- Conducted routine inspections and maintenance activities on electrical equipment, ensuring efficient operation.

Projects

Todo App [Live Demo Link](#) [Github Repo Link](#)

JavaScript React Git Node.js Express.js

MongoDB

- Implemented secure user registration and login using JWT for authentication.
- Designed and developed server-side APIs using Node.js and Express.js.
- Integrated MongoDB for efficient task management, allowing users to create, read, update, and delete tasks.
- Ensured seamless interaction between the frontend (React.js) and backend components.
